Write test cases for calculator of shipping

Url: https://onex.am

The first thing I did was check and uncheck the countries the USA, USA(new), Russia, UK, China. Here is the thing that I found. When we are clicking in the USA (the first radio button pic. we can choose everything such as parcel, by sea, by air. But there are some differences in the calculator. For example, in pic you can see the "Armenian version" of the website we see many details such as height, width, etc. If we have a look in "English version" of the same page, we will see the magic.

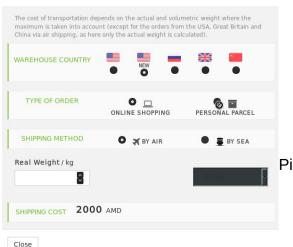

Pic 1. Pic 2.

To get this result.

TRICK .1:

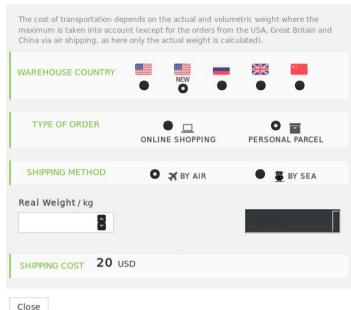

- 1. Click on USA radio buttun
- 2.Click on shipping by sea.
- 3. Click on Russian flag,
- 4. After that click on first USA flag and here we go.

Initially We shouldn't be able to set height, width, etc. when we choose to ship by air or we should, I don't know it is unclear. The magic works in both version of website even in Russian. The second thing that found is when we clicking in USA (new) then we cant choose personal parcel. You can see It in picture below (pic 3).

Pic 3.

So we know that onex is a flexible website and if we can get also the result in Pic 4.

To get this amazing result we should

TRICK 2.

- 1) Click in USA flag
- 2) Click personal parcel
- 3) Click in USA(new)

And we can calcualte for personal parcel
The trick here is if you go the USA new from
RUS, UK or CHN flag you cant choose
personal parcel but if you go from USA
where you alowed to chose personal parcel
you can check it in USA(new) as well.

Pic 4.

Now let's have a look to another interesting thing in Shiping cost. So in Pic 5 you can see that the cost of personal parcel is 20 USD. Now let's do some tricks to get another result

Pic 5.

TRICK 3:

- 1)Click on USA flag
- 2) Click on shipping by Sea
- 3)Click on RUS
- 4)Click on USA flag
- 5)Click on personal parcel

You will have a result in Pic 6.

	unt (except for the orders fron re only the actual weight is cal	
WAREHOUSE COUNTRY	NEW O	
TYPE OF ORDER	ONLINE SHOPPING	PERSONAL PARCEL
SHIPPING METHOD	● ¥ BY AIR	BY SEA
Length / cm	Width / cm	Height / cm
Real Weight / kg		tm/kg
SHIPPING COST 25 u	JSD	

Pic 6.

So there is another interesting trick in onex. TO send 36 kg in USA (first button) worth 360 USD. But when we will use the TRICK 3 we can reduce it up to 90 USD.

I think this is enough for testing this beautiful webservice
